Saratoga Library Series

There's more than meets the eye when it comes to designing a beautiful yet practical library that works well for everyone. And Hale makes sure that our components provide the conveniences that help accomplish tasks efficiently.

Our modular designs, supply drawers, shelves, doors and book returns can be mixed and matched for an environment that's aesthetically pleasing and exceptionally functional.

All wood used in the construction of parts and shelving will be kiln-dried hardwood containing moisture content of 5% - 7% at the time of fabrication. All woods will be selected for uniformity of grain and color. Wood used for internal parts will be selected to be structurally sound.

End panels will be hardwood veneer over a 3-ply flake core panel with thickness of 1". The front edge is hardwood banded with a bull nose profile.

All joint construction will use standard woodworking methods including peg and dowel, dovetail, spline, rabbet, mortise and tenon. Units are factory assembled as freestanding units for quality assurance the old-fashioned way.

Mohawk Library Series

Ideal for library installations, the Mohawk Series use 3/4" thick solid oak shelving and A-1 grade 1" thick veneer core uprights at exceptional value. This cost efficient library shelving system consists of starters with 2 ends and adders with 1 common end to create continuous runs. The Hale frame system, with top and bottom sub frames factory assembled, makes for easy installation. All connecting hardware uses threaded machine bolts and nuts.

Ends are 1" thick veneer core with a 1/4" thick oak front edge. No particleboard is used. Top panel is 3/4" veneer core with optional laminate surface. Bottom shelf is solid 3/4" thick oak. Connecting framing is solid hardwood and built as a sub assembly with the use of staples and glue blocks. Front, top and base rail are 3/4" thick solid oak. Backs are 1/4" genuine wood veneered plywood finished to match.

For projects without backs, back cross cables are provided and back groove can be omitted upon request.
