## Saratoga Library Series

---

There's more than meets the eye when it comes to designing a beautiful yet practical library that works well for everyone. And Hale makes sure that our components provide the conveniences that help accomplish tasks efficiently.

Our modular designs, supply drawers, shelves, doors and book returns can be mixed and matched for an environment that's aesthetically pleasing and exceptionally functional.

All wood used in the construction of parts and shelving will be kiln-dried hardwood containing moisture content of 5% - 7% at the time of fabrication. All woods will be selected for uniformity of grain and color. Wood used for internal parts will be selected to be structurally sound.

End panels will be hardwood veneer over a 3-ply flake core panel with thickness of 1". The front edge is hardwood banded with a bull nose profile.

All joint construction will use standard woodworking methods including peg and dowel, dovetail, spline, rabbet, mortise and tenon. Units are factory assembled as freestanding units for quality assurance the old-fashioned way.

\*As shown, custom end panel designs are available.

Warranty: 10 years from date of shipment against manufacturer's defects and workmanship.

## Saratoga Library Series Starter/Adder Shelving

---

A library shelving system consisting of starters with two uprights and adders with one common upright to create continuous runs.

The Saratoga Series Maple starters and adders feature premium grade 1" solid lumber core uprights and shelves that are lightweight yet exceptionally strong. Wood or laminate tops are available, as well as continuous tops for added functionality.

The Hale top and bottom sub-frame system is factory assembled for efficient, on site assembly.

Custom sizes, designs, and special finishes are available.

For projects without backs, back cross cables are provided and back groove can be omitted upon request.

Warranty: 10 years from date of shipment against manufacturer's defects and workmanship.

## Mohawk Library Series

---

Ideal for library installations, the Mohawk Series use 3/4" thick solid oak shelving and A-1 grade 1" thick veneer core uprights at exceptional value. This cost efficient library shelving system consists of starters with 2 ends and adders with 1 common end to create continuous runs. The Hale frame system, with top and bottom sub frames factory assembled, makes for easy installation. All connecting hardware uses threaded machine bolts and nuts.

Ends are 1" thick veneer core with a 1/4" thick oak front edge. No particleboard is used. Top panel is 3/4" veneer core with optional laminate surface. Bottom shelf is solid 3/4" thick oak. Connecting framing is solid hardwood and built as a sub assembly with the use of staples and glue blocks. Front, top and base rail are 3/4" thick solid oak. Backs are 1/4" genuine wood veneered plywood finished to match.

For projects without backs, back cross cables are provided and back groove can be omitted upon request.

Warranty: 5 years from date of shipment against manufacturer's defects and workmanship.

## Saranac Series Hardwood Chairs

---

Manufactured in hard maple, northern red oak, or cherry, these elegant chairs will add function and style to any library. Offered in three different back styles and as side chairs or with arms. Solid hardwood seats are ergonomically sculpted for comfort. The Saranac chair features a solid wood frame and steam bent components for strength. Upholstering, special finishes, and modifications are available.

Chair backs will be 1" thick bent backs with steam bent slats. The solid wood scooped seat panel is glued up and screwed to the seat bracing rail that is tongue and grooved, glued and screwed at 45 degree angles.

The solid wood chair legs are 1 1/4" x 1 1/2" in the back, and 1 1/2" x 1 1/2" in the front. The legs are braced by 1" solid wood double H framing, that is both glued and doweled.

The front and side aprons of the chair are 3/4" x 2" solid wood with mortise and tenoned joints.
